

Virtual Hatchery by Ian Tyner
(*Nonce*) (*Mega List*) (*Insight Canvas*)

NONCE

Explorative Venturing

“For the things we have to learn before we can do them, we learn by doing them.” – Aristotle

The Nonce Virtuosity hatchery is your digital growth collaborator. The intention of Nonce is to create value in the market for remote agile ventures and moonshots in the cloud. Untapped potential unleashed.

**Wherever you are, Nonce can help you:
collaborate, connect and construct.**

About

Nonce is built on a cryptographic way of engineering for long term venture growth within a hatchery and through an extensive knowledge library for the public.

Making entrepreneurship accessible.

Big Picture:

As impact pioneers, we have the opportunity to change the world, for the better.

Execution Lens:

Our strategy is action based, bringing together leaders to continuously improve.

Overview

The leader in virtual ecosystem development.

Created by and for entrepreneurs. Optimistic values. Diverse project approach. Active in mentoring. A place for the virtuoso.

Suite Demo

See what the Nonce platform can do for you.

We work with enterprises, innovators, ventures and SMEs to optimise their scaling.

Nonce-dynamized: Independent initiatives who need collaboration development, world-wide deployment and the space to work within and around the Nonce marketplace.

Nonce-enabled: Community ventures who would like integrated Nonce product, Creativity as a Service, managed implementation and tailored programs to accelerate their core business.

Learn

Unbundling geo and re-fragmenting communities. The digital worker of this millennia is an integral part of any new collaborative network. People working together, in a generation of leaders, in which there is unified distance, where location does not matter. What is important is the combinatorial value that drives open and horizontal innovation management, fostered by these new interactions. Enterprise to virtual. Applied development. Complete productivity that enables the nourishment of creations, and the harvest of abundant input to endless output.

Platform

Virtual Innovation

Teams all around the world use Nonce to collaborate more effectively.

Community Engagement

Entrepreneurs validate their ideas to a wide audience with Nonce.

Venture Hatching

Ventures that need support resources go to Nonce to grow their business.

Storage Development

Initiatives know that Nonce can formulate high quality capacity hardware.

Hatchery

Bridging knowledge

Nonce provides a continuous learning base for teachers and students.

Connecting merchants

Our platform engages the mobile friendly participant to grow their network.

Creating profit

The Nonce village allows people to create value in the cloud and real-world.

Scaling markets

With glocal stack technology solutions, the Nonce team creates new interactions.

What Is Your Idea Stage?

The Nonce Pathway

The idea of a premium platform and virtual hatching isn't really new, but there was a gap in the market. How could tech savy people who were not nearby a digital hub actually innovate? Crafted after years of prototyping, Nonce was established.

By working with on and offline micro ventures, that are scaled entirely in the cloud, entrepreneurs get benefits that a brick and mortar just can't offer.

Nonce asked entrepreneurs what do they feel when building a new business?

The answer that we kept hearing was, "We have a pain, there is a pain in the market, we're on the road to success, and we love what we do."

What makes people engage with a venture?

A passion and vision of the venture's direction with founders that have a need to help others along the way.

With the Nonce glocal approach to creating local solutions, in regional valleys and remotely, efficient leadership is the area of venture building that comes up as being the pivotal aspect that creates a sustaining business and not a flop.

Through proper implementation of human capital and professional development in creating leaders, ventures and enterprises alike can improve on the technology product or service that they provide.

The industry experience of the Nonce team and network has the potential to teach

new leaders best practices as well as innovative methodologies that manufacture value to those that need it.

All of the educational initiatives that we bring to entrepreneurs, are shaped to the needs of that upcoming leader in your locale.

The questions then become, how can you transform your inner leader to foster good for the greater impact of your company and do you want a successful venture, not a 10-year venture?

With professional mentorship and training, the Nonce hatchery helps entrepreneurs to be: Technologically advanced, effective in commerce and leaders of their company.

The Nonce Pathway

Micro hatching: Nonce works with contemporary ventures by hatching in the cloud.

Creating Value: The Nonce platform helps you generate and extract real value.

Infrastructure Potential: Nonce provides skills and aspirations optimisation with our infrastructure.

Inclusive Brains: We believe that it is the brain that is the spark of creativity.

Life Improvement: Assessing your capabilities, apart from work.

Network Gain: Bring in the Nonce network to grow and launch.

Realization Scaling: Understand how your venture realistically will scale with an Nonce model.

Sector Collaboration: Learning from different groups of professionals is a major part of the initiative.

Week 1 : Comprehensive evaluation of the initial venture concept and real feedback

Week 2 : Mentors with mentees start to work together, based on skills and aspirations

Week 3 : MVPs created

Week 4 : Ventures begin to deploy their MVP to the Nonce cloud

Week 5 : Deployment has finished, first customers are acquired

Week 6 : Intense agile customer development sessions

Week 7 : Stringent revaluation of the founders and venture by their mentor

Week 8 : Conceptualisation of the progression of where the micro venture is headed

Week 9 : Realise the appropriate scale of growth of the venture

Week 10 : Building out of the venture within the bounds of the Nonce platform

Week 11 : Reach out and connect with thought leaders in the sector of focus

Week 12 : Construct a beta of the product or service

Week 13 : Continue to improve the micro venture and start to get an idea of how to launch

Week 14 : Appropriate continuing education is employed given the new skills needed

Week 15 : Accelerated iteration and planning on how to scale on the platform

Week 16 : Move to acquire a large group of additional customers

Week 17 : Audit of the micro venture

Week 18 : Final business development iteration and interviews

Week 19 : Launch and online demo week

Week 20 : Ongoing mentorship and new advisor roles are created

Earthly Perspective -> Conscious Capitalism -> Glocal Consortium -> Your Initiative

Living the remote life. Learning continuously.

Education

The Nonce community extends to learning portals that seek to broaden their commitment to being a part of venture connection.

With innovative developments forming in virtual education, researchers and students have the know how to accelerate their business.

By integrating the Nonce hatching platform with the seedlings of new thought, remote workers can move from the past and towards tomorrow's growth.

It's good to go to college, we just think that the skills needed to stay ahead happen in new collaborative spaces.

Let us assist you in guiding your venture with the Nonce cloud curriculum, today.

Growing new glocal remote ventures in the cloud with hatching.
